

POWERING BUSINESS SUCCESS THROUGH IT PERFORMANCE AND INNOVATION

Absolute Performance Inc. (API) provides infrastructure management, cybersecurity, end-user help desk, and data and application modernization services that help companies enhance the value of their technology investment, gain a competitive edge, and achieve growth. As your trusted IT advisor, we'll partner with you to secure your environment from cyber threats, sustain, and improve your infrastructure operating performance, and free your team to focus on higher value initiatives while augmenting the depth and breadth of your IT staff.

FREE UP VALUABLE RESOURCES FOR MISSION-CRITICAL INITIATIVES

Our IT experts have advanced knowledge across many domains, including financial services, manufacturing, distribution, retail, healthcare, professional services, insurance, contact center, gaming, and casino verticals. That means, when you partner with us, you get a team of pros who understand your needs, goals, and combat evolving cybersecurity threats with high availability that keeps your operations running smoothly, we'll also remove burden from your IT team, so they can focus on mission-critical initiatives that power business stability and growth.

SECURITY, STABILITY AND PERFORMANCE

We're an elite team of experts who will listen, diagnose, and help solve your unique challenges and advocate for IT's role as a business enabler. Serving as an extension of your IT team, we'll help you meet your IT infrastructure goals, overcome staffing constraints, enhance your security posture, audit compliance, and control rising IT costs while protecting and extending your IT investment. Think of us as a single, comprehensive source of expertise, available to economically address your every IT need—no matter how complex.

OUR PEOPLE MAKE THE DIFFERENCE

When you work with us, you get access to seasoned IT pros who are known not only for their advanced expertise and vast skillsets, but also for cultivating long-standing, trusted relationships with customers. We'll collaborate with you to evaluate the current state of your company, achieve a shared vision of the future, and make your vision a reality. Plus, as an IBM Top Managed Service Provider, we uniquely offer advanced expertise in IBM i (AS/400) and AIX technology to help you extend your investment runway and provide a safety net to a limited talent pool of IBM i and AIX-based talent.

STRATEGIC COMPETITIVE ADVANTAGE

With transformational ROI-based software services, including systems design, development, and support, we enhance strategic competitive advantage through proven technology in data warehouse, business intelligence (BI), and artificial intelligence (AI) solutions and process transformation.

At API, we pride ourselves in acting in your best interest with innovative solutions and customer-first support that ease the strain on your internal staff, help address your complex IT needs, and support profitability and growth for your business.

ONLY API:

- Offers an agile, solution-based approach that puts customers first
- Combines process-driven solutions with proprietary, patented technology to enhance stability, performance, agility, and speed
- Acts as an extension of your IT team to bridge skills or staffing gaps
- Is a recognized leader in IBM i (AS/400) and AIX technology
